AFTEROOM COUNTER & BAR STOOLS

AFTEROOM COUNTER & BAR STOOLS

About

Following the success of the Afterroom Chair and proving to be one of the most popular designs from the SS13 collection, the series now features two additional size variations – Bar and Counter Stool. Using the same innovative and simple concept, the Afterroom Bar and Counter Stools come with four legs, providing great support and stability.

Design

Afterroom is a Stockholm-based design studio, respecting wear and tear and the passage of time. Founded and directed by Hung-Ming Chen and Chen-Yen Wei, the studio's mission is simply to create beautiful products which will increase in value with the passage of time – design with which one can grow old. The inspiration derives from an intriguing interest in forms, senses, proportions, materials and cultures. The philosophy pivots around simplicity and honesty.

Features and benefits

"The rounded details such as the upholstered seat and flexible back support, both in wood, contrast the solid steel frame. And when looking at the chair, it's difficult to differentiate what is what, due to the designers' attention to detail. We embraced the challenge of designing something minimalistic with clean lines, without in any way compromise its comfort. In that sense we've looked towards classic Scandinavian features as inspiration", says Hung-Ming.
