Reimagining the classic elegance of glass vases and bowls, the Échasse Series brings a minimalist silhouette with distinguished, playful edge to modern and traditional spaces. Theresa Rand's playful concept beautifully interprets the word "échasse": French for "stilts". The slender, stilt-like supporting legs delicately suspend the glass forms, creating a sense of lightness while ensuring stability.

The Échasse Hurricane completes the poetic trilogy of enchanting forms. The most recent addition to the family, the clever, orbital shape was designed as a sanctuary for tealight candles, preventing breezes from extinguishing these captivating, round drops of light. In this role, the Échasse Hurricane becomes the ultimate amplification of hygge. By virtue of its inventive shape, the design invites us to explore, imagine and curate our own unique display piece for the way we live.

Its expression ethereal, its design elevated in every sense, the Échasse Series offers infinite possibilities for experimentation, as its test tube origins suggest. Alone or together, filled with favourite flowers, fruits and objects or displayed alone as sculptural focal points, these pieces enliven modern spaces with equal parts daring and grace.
